Chain-Link Fencing

A chain-link is a type of woven fence usually made of galvanized or linear low-density polyethylene-coated steel wire. The wires run vertically and are bent into zigzag pattern so that each “zig” with the wire immediately on the other.

8 Advantages of Chain Link Fencing:

1. Affordability. When compares to other fence materials, chain link is among the least expensive to install
2. Variety
3. Low Maintenance
4. Visibility
5. Quick Installation
6. Durability
7. Easy Repair
8. Security

About Us

Proline Fence was established August 19, 2019 but has 50 years combined of fencing industry experience.

Mission Statement

Every project we do is a self-portrait of who we are. We strive for excellence to maintain a reputation anchored on honesty, integrity, and professional craftsmanship.

Vision

Core Values serve as the blueprint to our daily interactions with customers and each other.

Our Commitment

Our Commitment to give the best customer service possible and quality of every project, big or small. We take pride in a job well done. We are *fully* bonded and insured.

Relationships

We rely on our relationship with our employees, suppliers and most importantly our customers. We treat each customer like family and take time to get know them and their needs.
